

BEAU MONDE 30

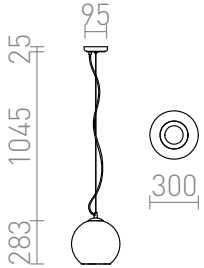

Pendant with a shade of hand-blown glass. The interesting appearance of the shade is achieved by a special method in which a thin layer of metal is applied to the glass. The surface of the shade becomes mirror-like while the light is turned off and partially transparent while lit. The light is fitted with an E27 sockets for low-energy light sources. Small bubbles on the shade's surface are a result of the creation process and not a defect.
